Team Retro

What went well	What didn't go well	Action Items
• We are all on the same page with the work being done. ✓	• Bridging the gap between Teammates in two countries (India and USA).	• We should test the running status of our software by entering different parameters.
• We are updating the GitHub with Project2 Sprint1. ✓	• Every team member must follow meeting minutes.	• Updating Sprint1 Documents in GitHub and Jira.
• Integrated Git repositories with Jira.		• Data base table creations as per the locations.
• We frequently try to communicate to discuss about the project sprint and the advancements. ✓		• Needs to fix epics of receiving error report through email after the program crash down.
• We were able to successfully finish the weekly work Sprint1 schedule. ✓		• Testers(all teammates) needs to verify website thoroughly every alternative day.
• We as a team, have planned to keep it an objective to finish and produce what was expected (Sprint1) ✓
