Retrospective

What went well?

• We have tested the running Status Of Our software by entering different parameters.

• updated Sprint 1 Documents in GitHub and Jira.

• Database created as per the locations.

• We have fixed the epics Of receiving error report through email after the program crash down.

• Testers(all teammates) have verified website thoroughly every alternative day.

• Updated Sprint 2 documents in GITHUB and JIRA and Bitbucket .

• Implementation of search bar

What didn't go well?

Limitation of different time zones affecting work hours.
Jira needs to be used in better way for collaboration.

Action Items?

Enable Maps, Completing functionality of the database.
